Golf Course: Nobleton Lakes Golf Club

Please upload a map of the golf course showing the locations where Class 9 pesticide ingredients were applied, and identify use by Class 9 pesticide ingredient or by product type (fungicide, insecticide, herbicide, growth regulator)

Please explain how practicing integrated pest management (IPM) and maintaining IPM accreditation with the IPM Council of Canada minimized the use of pest control products on your golf course and how it will minimize use in this current calendar year.

With proper monitoring and improved IPM practices Nobleton Lakes Golf Club has committed to and continue to improve culture practices, training to help reduce the amount of chemical used on the property. Moving forward Nobleton Lakes Golf Club will increase fertility to help improve disease control and will continue to develop better IPM in the future as part of the IPM accreditation.

We, the undersigned, attest that the above information is accurate and inclusive of all pesticide products applied on our golf course for the entire year. We are aware that it is an offence under the Pesticides Act 17(6) to include false or misleading information in any document or data required to be created, stored or submitted under the Act.
